Japanese Mayor To Visit Monday

The mayor of Minakami-machi, Japan will arrive in Amarillo Monday afternoon for a three-day visit to the City of Canyon.

Mosaku Onozato, mayor of the Japanese city, indicated he would arrive by plane in Amarillo Monday accompanied by a Mr. Shimizu and a Mr. Takekura.

Following a Red Carpet Welcome by the Canyon Chamber of Commerce, a welcome and presentation of a key to the city will be made by Mayor Paul Lindsey and Dr. James P. Cornette, president of West Texas State University. A small dinner has been planned Monday evening at the Villa Inn for the foreign visitors.

Tuesday, the agenda includes a visit to City Hall at 9 a.m. and tour of city department facilities and Canyon from 9:30 a.m. until noon.

Following a noon luncheon with the Canyon Rotary Club, the Japanese mayor and his guests are scheduled to visit Rex Reeves Elementary School and WTSU.

A dinner, scheduled at 6 p.m. in the WTSU Gold Room, will

include Dr. Cornette as master of ceremonies and the invocation given by JoZach Byrd.

Mayor Lindsey and Dr. Cornette are scheduled to present and receive gifts from the visiting dignitaries.

On Wednesday the men will be taken on a tour of Palo Duro Canyon State Park at 9 a.m. and a visit in the Panhandle Plains Historical Museum at 10:30 a.m.

After a luncheon with the Canyon Lions Club, the guests will visit the Erwin Greenhouse, Randall County Feed Yards and an irrigated wheat farm.

A dinner is scheduled for 6 p.m. at Amarillo's Villa Inn. Thursday the schedule will be arranged according to the wishes of the guests.

Canyon established a "sister city" relationship with Minakami-machi, Japan last year and Dr. and Mrs. James P. Cornette have visited in Japan with Prince Yoshihito Yozen, an internationally famous sumo wrestler and member of the Imperial family.

Prince Yozen visited in Canyon two years ago and was made an honorary faculty member of WTSU and an honorary citizen of Texas.

"The purpose of our stay," Onozato said in a recent letter to Mayor Lindsey, "is to be favored with your kind guidance about the autonomy of your city, how your municipal assembly is carried on, education activities, public welfare, etc."

Accompanying Onozato's letter was a picture of carp steamers which he plans to raise in ceremonies involving school children here.

Stores Close For Holiday

Canyon Chamber of Commerce retail merchant's committee has requested that local businesses observe today, Memorial Day, as an official holiday.

Some local businesses will be closed all day today, Thursday. Both the West Texas State Bank and First National Bank in Canyon will be open for business.

The City Hall, offices of the Randall County Courthouse, and the Canyon Post Office will be closed for Memorial Day and will re-open for regular business on Friday.

Cut Down Expense Court Admonished

BY TROY MARTIN

Controversy over equitable taxation of rural and urban property was renewed this week as commissioners court sat as a board of tax equalization.

More than 200 persons crowded into the district court room here Monday as the commissioners began tax hearings. Hearings were continuing Wednesday.

Commissioners raised county taxes 20 percent across the board in action April 15.

County Judge Carroll Brown used a chart to explain the tax raise to taxpayers who gathered Monday. He told the group that the increase on a \$10,000 homestead would come to only \$3.87 a year.

"A substantial part of the tax increase will go to finance a county retirement plan for county employees," Judge Brown declared.

Commissioners recently voted to establish a county employee retirement program as provided under state law. Under the plan employees deposit 7 percent of their salaries in the retirement fund and the amount is matched by the county.

Tax Assessor-Collector Bill Money said the retirement program will cost the county about \$20,000 a year while the tax increase was designed to raise an additional \$100,000.

Actually, county officials say extra revenue was needed to finance the retirement program, pay off warrants issued for construction of a \$400,000 annex on the north side of the court house here and to pay for rising county expenses.

A number of city people expressed displeasure because rural property is not valued for taxation on the same ratio to actual value as city property.

Money said 100 percent of market value is used as the base for taxing city property while a base of less than 50 percent is often used in taxing rural property.

New Zoning Standards Under Study

A public hearing on a revised set of zoning standards for the City of Canyon has been scheduled for July 17 at 7 p.m. in the American Legion Building.

The meeting date, set at a gathering of Zoning, City and Planning commissioners Monday afternoon, will be the first step toward passage of the new standards prepared by Marvin Springer, urban planning consultant.

The tax collector noted that a city home with a market value of \$10,000 is taxed on a basis of 15 percent of that value or \$1500. Other city property is taxed on the same ratio.

He said grassland in the county is carried on the tax rolls at an actual market value of \$35 an acre for top land and at \$25 to \$30 an acre for number 2 land.

Dryland is on the rolls at an actual market value of \$55 an acre while irrigated land is carried at an actual market value of \$175 an acre.

Rural houses and improvements on pavement are on the rolls at 50 percent of actual market value and houses and improvements not on pavement are on the rolls at 45 percent of actual market value.

Money said 15 percent of these values are used in levying county and state taxes. Until the raise the percentage was 12.5.

The tax assessor-collector pointed out that dryland farms in the county actually sell for \$100 to \$150 an acre and irrigated land brings from \$250 to \$400. "That's what it will bring," said Money. "I don't say it's worth this. I don't say you could buy it at that price and make

City Pool Splash Day Saturday

Splash Day at the Canyon City Pool will be Saturday, June 1, at 1 o'clock, according to park-recreation supervisor Tom Buchanan.

On splash day the pool will be open from 1 until 7 p.m. which will be the regular pool hours throughout the summer months. Sundays the pool will be open from 2-6 p.m.

The pool will not be open to the public evenings except by special arrangements for parties, according to Buchanan. For night arrangements Buchanan should be contacted in advance.

Lifeguards for the summer will be Cynthia Gerald, Becky Price and Lon Conner. Buchanan stated that two or more lifeguards will be on duty during all hours the pool is open. Pool admission will be charged.

In addition to swimming, the park-recreation supervisor will be in charge of an organized recreation program for local youth throughout the summer. Included in the recreation program will be volleyball

County Judge Carroll Brown, right, is shown here using a chart to explain a recent 20 percent county tax raise to some 200 taxpayers who came to the county court house Monday to meet with commissioners who were sitting as

a board of equalization. Due to the size of the crowd, the hearing was moved from commissioners court room to the district court room. Holding the chart is Deputy County Clerk Virginia Byars.

Randall Demo Run-Off Election Is Saturday

Randall County Democrats will vote in three run-off elections Saturday.

Polls open at 7 o'clock in the morning in Amarillo and at 8 o'clock elsewhere in the county. All polls close at 7 o'clock in the evening.

There is one county run-off election in which J. L. "Jim" Fletcher, Randall County farmer, will meet J. S. "Honest Jess" Williams for Democratic nomination for the office of commissioner, Precinct 1.

Large Haul In Burglary

Clothing valued at approximately \$2,500 was taken in a burglary at Cheatham Clothiers about midnight Monday.

Investigating officers said the burglar cut the steel bars, then broke a window glass and gained entry.

Store owner, Roy Cheatham, said among those items taken included 10 suits, two white sport coats, 11 sport coats, 20 sweaters, 10 robes, jewelry, cologne, underwear, socks, white and sport shirts, four pair of boots, 12 pair of slacks, and about \$10 in change from the cash register.

Don Savage, Canyon policeman on duty at the time of the burglary, said he checked the establishment at 12:50 Monday and discovered the incident at 1:10 a.m. Tuesday. The burglar could have been in the store when he checked shortly before midnight, Savage said.

Officers said three sport shirts and two pair of socks were found at the back door of the establishment.

CHEATHAM'S CLOTHIERS of Canyon was burglarized sometime late Monday. Store owner Roy Cheatham estimated loss to be about \$2,500. Shown examining a window where entry was gained is Dusty Arnold, an employee of the business establishment.

In the first primary May 4, Fletcher received 997 votes as compared to 499 by Williams. Forrest E. Walker received 486; J. W. "Bill" Oglesby, 440; and Wayne H. Kelso, 298.

Winner of the run-off election will meet David L. Clifton, Republican nominee, in the November general election.

Neither of the two men in the run-off for governor were front runners in the May 4 primary in Randall County.

Preston Smith ran fourth and his run-off opponent, Don Yarborough, ran third. In Randall County there were 8,332 votes cast in the governor's race May 4.

Smith received 1,065 while Yarborough polled 1,457. This leaves 5,810 votes up for grabs if the number voting in the run-off equals those who cast ballots in the first primary.

Jack Hazlewood faces James A. Joy in a run-off race for associate justice, Court of Civil Appeals, 7th Supreme Judicial District.

Hazlewood carried the county

Scholar Awards For Two Grads

Two Canyon High School graduates were honored Friday morning with the presentation of Scholar Awards from the West Texas Chamber of Commerce.

Roland Black, Canyon's Chamber of Commerce executive secretary, made the presentation of certificates to Robert Olsen and Ric Wilson for scholastic achievement and citizenship. Qualifications state that a student must reach standards set forth by the West Texas Chamber of Commerce.

The award area includes the high schools incorporated in the West Texas Chamber of Commerce coverage area. This area is bounded by Fort Worth, Wichita Falls, and El Paso and includes some 232 counties of the Panhandle and West Texas. About 2/3 of the land area of Texas is included in the department and approximately 400 certificates were presented in the area.

Olsen, son of Mr. and Mrs. Kenneth Olsen of Canyon, was recently named the valedictorian for the '68 graduating class at Canyon High School. He maintained an average of 97.86. He is a member of the CHS National Honor Society, Science Club, French Club and C Club for lettermen. He has been a varsity basketball player for two years and is a varsity tennis player. He was named to the first team All-District in 1-AAA in 1967 and was named all tournament at Pampa last year. He has also served on the Student Council for three years, was president of the junior class and was named to Who's Who.

COVERING FUMBLES
Don Mitchell Jones

The day-to-day fist fights between friends in my ward school days taught us that there are fundamental ways in which human beings are not "equal".

MRS. SHORTY FLOWERS, wife of the Veterans of Foreign Wars commander in Canyon, pins a "buddy poppy" on David West of the First Na-

tional Bank. The VFW Auxiliary members were selling poppies Tuesday and Wednesday of this week in preparation for Memorial Day.

by Troy Martin FROM THE CANYON RIM

My apologies to West Texas State University. Last week I made the statement in this column that WTSU might have flown its flag at half mast in honor of Ronald Shepard, WTSU graduate who was killed in Vietnam. This was an insinuation that the flag was not lowered in mourning for Captain Shepard. I learned Thursday that the WT flag had flown at half mast all day the previous Monday—the day the captain was buried.

Preston Smith is the man to elect governor of Texas. Smith is a man of experience and ability best suited to head the state government for the next two years.

He has had 18 years of experience in state government.

In spite of his detractors, his accomplishments in the state's legislative halls have been many. He is a man of strength who will be able to represent the state well if he is elected.

His very strength has made him some enemies over the years. In spite of declarations and insinuations by his detractors, I believe Preston Smith will make the state a good gov-

ernor who will advance progressive programs and who, above all, will meet any threat to law and order with courage and determination.

Some city people have been complaining that farm land is not taxed high enough in proportion to the actual market value.

Speculators may buy land at a high price but taxable value has to be tied in some way to what the land will produce.

Irrigated land is on the county tax rolls at \$175 an acre. Irrigated land leases at about \$25 an acre, according to one farmer to whom I talked this week.

This would figure roughly \$2 per month per acre. Real estate agents advise that a landlord should get at least 1 percent per month for rental fee on property. Leasing fee of \$2 an acre per month would peg the earning value of irrigated land at between \$175 to \$200 an acre so the county tax rolls don't seem to me to be far off.

Houses located on farm land is another question. The county taxing formula taxes a \$20,000 farm home on the same basis that a \$10,000 city home would

be taxed. I think houses in the country should be on the tax rolls for the same thing a comparable house in town is on the rolls.

The ad valorem tax is the most unfair tax in existence and should be abolished and replaced with a more equitable form of taxation.

When I say ad valorem tax is unfair, I point to types of business with their principal value in goodwill.

I am speaking chiefly of newspapers, radio stations, insurance agencies and law firms. It is possible for these businesses to actually be worth many times the value of equipment they own. Yet, the equipment is all any tax collector can levy upon. It is all upon which these businesses are required to pay taxes.

The value of goodwill is present but who can put a value on it?

US News & World Report all but predicts a middle class revolution at the polls in November.

US News says the middle income group, families with incomes of \$7,000 to \$15,000 a year, pay 50 percent of all federal, state and local taxes.

Those making less than \$7,000 pay 22 percent and those above \$15,000 pay 28 percent.

Recently Senator Harry F. Byrd, Jr., Virginia, advised his constituents that "even if Congress voted to tax 100 percent of all of the taxable income in

this nation over \$10,000 (\$20,000 joint return), the revenue gained would be only \$13.2 billion—not enough to pay for the increase being asked by this administration."

Conservative candidates may have a better chance in this year's elections.

Even more galling than the "poor people's march" on Washington is the very arrogance of their demands.

Ralph Abernathy was two hours late for an appointment with a cabinet member. "We've been waiting on the white man for 350 years. . . We just decided today that we were going to let him wait on us," was Abernathy's comment in the place of an apology.

Abernathy heads up the "poor people's march."

One woman from Mississippi told Secretary of Agriculture Orville Freeman, "We aren't begging for nothing that don't belong to us. . . We must have it and we want it now."

The same woman had complained that she drew only \$113 a month in welfare and had to pay \$56 a month of that for food stamps.

The cross of constantly rising welfare is heavy enough for the working people of this country to bear, but if the Congress votes a guaranteed annual income, the days of free enterprise are numbered.

Personal incentive will be dead and the fountain of this country's affluence will be dried up at its headwaters.

If the production of good things is to continue, those who partake of them must help in their production. Every penny that is spent, whether in wages or welfare, for which there is not a corresponding increase in goods or services is a contribution to inflation, chaos and the eventual downfall of us all.

The Capitulation Kid got his come uppance in Oregon. Maybe if he gets as soundly spanked in California next week we'll have seen the last of his bushy head for a while.

The only dishartening thing about the Oregon Democratic Primary was that the winner also wants to surrender to the Commies.

Letter To Editor

To the Editor:

You are unjustly insinuating that the McCarthy group is a mirage for a local SDS (Students for a Democratic Society) organization. In your editorial of May 23, you stated that Bartee Haille, Jr., . . . attended a meeting of the McCarthy group. Might I take this opportunity to add that these meetings are publicized. We can not ask people to leave a meeting, as you well know, because we do not agree with their views or their vocation. We must let all interested or uninterested parties (as the case often presents itself) into the meetings. This often includes many who would have ill intentions upon the group.

We are aware of these groups, but we are also aware that it is a public meeting; at a public meeting place; and that the public is invited. We do not and can not ostracize any individual—SDS members or newspapermen.

Zoning . . .

sultant of Dallas.

The standards, which set forth regulations regarding parking, specific use permits, temporary and boundary zones, area regulations and other guidelines, will be discussed and explained at the July 17 meeting, Springer said.

The City of Amarillo conducted a public hearing on new zoning standards late last week.

The standards, plus a new set of subdivision regulations, are being prepared by Springer as part of a comprehensive plan for the City of Canyon.

City officials received notification earlier this year that a grant of \$10,521 had been approved by the Department of Housing and Urban Development to aid in preparation of the comprehensive plan.

The HUD grant, payable to the State of Texas, will cover three-fourths of the total cost of the planning work. Supplemented by \$3,507 in local funds, the grant will finance planning activities for two years.

Springer said he would mail a copy of his proposed zoning map to local officials by June 5, after which members of the Zoning Commission will make their recommendations to the City Commission.

A separate public hearing will be necessary on the proposed subdivision regulations, Springer added.

a living on it and pay taxes. That's just what it will bring on the market."

Money said there has been "quite a bit of complaint" by city people because of what they describe as unfairness in the differences in levying taxes on city and rural property.

"Properties in Randall County are more equal now than they've ever been," declared Money, "but it is still not equal. All rural property is too low in comparison to the market value."

Money was asked why there is so much difference in values on city property and rural property in comparison to market value.

"You'll have to ask commissioners' court," he answered. "The court has told me that you can't own land at these prices and make a living on it and pay taxes."

Money pointed out that control of commissioners' court is now held by South Amarillo. "They have the best opportunity ever to equalize taxes," he went on.

"Over the years Randall County has consistently lowered taxes," Judge Brown explained to the taxpayers gathered in the district court room Monday. "This is the first time the county has found it necessary to increase taxes. Rates have been based on 12.5 percent of fair market value now it is 15 percent of fair market value."

"I can only assume that all the property is at a fair market value."

"Are the farms on the rolls at a fair value?" asked one member of the audience.

"The tax assessor has it on the rolls at what he considers a fair market value," the judge

answered. Farmers were also unhappy about the tax structure.

"The price of wheat and milo is off 25 to 40 percent from three years ago," said Canyon farmer E. A. Stocker. "Where are we going to get the money to pay? You're just going to have to cut down on some expenses."

A taxpayer from South Amarillo said closing of the air base and other economic factors have depressed prices of real estate in Amarillo. He said that the value of homes there have actually decreased considerably during the past several months.

There was some mirth and a little irony during the equalization hearings.

"I'm too old for men to care and too young for Medicare," said a widow from South Amarillo. "I'm on a fixed income and I may lose my home if taxes continue to go up. I only lack four years having it paid out."

One man said he got his taxes lowered \$1.15 but in the process lost a day of work and got a speeding ticket on the way to the court house. He figured his fine would cost about \$20 and it would take his savings about 30 years to equal his expenditures in getting it.

A farmer came in to complain about the raise in taxes on his farm land. In the process of hearing his complaint, commissioners learned that land which had been on the tax rolls at \$55 an acre as dryland was actually irrigated and it was raised to \$175 an acre.

Randall County's tax rate is \$1.15 on homesteads and \$1.45 on other property. The state rate is 47 cents.

part of the loss each year by assessment on dividends of the members was passed.

Caldwell explained that under Texas law, there is no provision for dealing with losses in a co-operative. The directors may take part of the loss from dividends for the next five years, he explained.

Total assets of the association are \$1,023,532.21, a state-

ment of financial condition indicates.

Stockholders voted to name Ervin Davis and Herbert Kuhlman to the board of directors to replace Vic Hill and Forrest Gruner whose terms expire this year. The four were the only ones running in the election.

Davis and Kuhlman will serve three-year terms.

It was announced that the association was no longer in Southern Farm Supply, an organization which was purchased April 1 by Farmland Industries of Kansas City. The regional co-operative serves the middle one-third of the United States, Caldwell said.

The 200-odd members present had a barbecue before their 39th annual meeting.

Group Back From NYC

Nine Canyon people, including six school representatives, returned early Tuesday from New York City where they met Monday with bond rating firms in an effort to have Canyon School District's bond rating elevated from a BAA to an A.

School officials say this would save the district about \$80,000 on a recently voted \$1,350,000 building bond issue.

School board members making the trip were Jerry La-

Grone, Wesley Cox, Joe Gill, Bill Davis and Walter Graham. Also on the trip were Jerry Jacobs, school superintendent, Joe Gidden, chamber of commerce; Paul Davis, Canyon city manager; and Bill Adams, First National Bank.

The group was accompanied by Bob Davis of Columbian Securities, the firm which is handling the bond issue. Columbian Securities paid expenses for the trip.

Hunsley Tourney June 8th

A tournament is scheduled Saturday June 8 at 1:00 p.m. at the Hunsley Hills Golf Club.

This is to be a selective shot (scramble) tournament. This type of tournament features team competition, each team consisting of 4 players. Each team member hits a shot, and the best shot of the four-some is the one that is played. Doing this on each shot adds excitement for the high handicapper, as well as the low handicapper. Ideally the team would consist of a 70s shooter, 80s shooter, 90s shooter, and a 100s shooter.

Some 50 teams are expected for this one day tournament, and thus far there are 100 entrants. Kelly Monroe, host pro, indicated that he would like to have more of the high handicap players to round out the tournament entries.

An entry fee of 7.50 will be returned in prizes. The tournament is open to both men and women. Anyone desiring to enter may write Hunsley Hills Golf Club, Box 419, or call Area 806-- OLS-4000, Canyon, Texas.

Porcelain Club Meets

Palo Duro Porcelain Art Club of North Texas held a regular monthly meeting at the home of Mrs. K. F. Erwin, northeast of Canyon, last Friday with Mrs. J. M. Justiss of Claude presiding.

The meeting served as an all-day workshop with installation of officers and a demonstration of raised paste on glass and china.

Officers were installed by Mrs. Hugh H. South of Dallas, treasurer for the state federation of Porcelain Art Clubs of Texas.

Mrs. L. S. Schmucker of Houston demonstrated the decorative use of raised paste with gold on china and glass. She is a past president of the state federation and conducted lessons for interested students for two days prior to the meeting.

Both Mrs. South and Mrs. Schmucker were houseguests of Mrs. Emzy May of Claude.

Riders Name Club Queen

Joyce Davis was recently named riding queen for the Buffalo Riding Club of Randall County.

Miss Davis, daughter of Mr. and Mrs. Clyde Davis of Amarillo, is a junior student at Amarillo High School.

She will represent the riding club at a variety of events throughout the year.

She was recently elected for the honor at a regular monthly meeting as the club selected Marion Boyce to serve as vice president. It was reported that 13 members of the club participated at the parade and rodeo in Hereford.

New members are invited to contact Mrs. Leroy Lamb, 499-2159, for information.

Control Of Weeds Is Stressed Here

Weed control should be of major concern to those who have recently seeded range grasses, according to supervisors in the

Randall County Palo Duro Conservation District.

Broadleaf weeds should be controlled to hold down competition until the grass is well established.

The best method of control, the officials said, is the use of 2,4-D amine at a rate of one-half to one pound per acre in 15 to 20 gallons of water plus surfactant.

This should be applied after the grass seedlings reach the three to five leaf stage and when the weeds are actively growing. Spraying before the grass reaches the three to five leaf stage may damage the grass seedlings.

Before the three to five leaf stage, spraying should be abandoned and shredding is best with the shredder or mower as low as possible to the ground.

When spraying 2,4-D, the user is urged to know and carefully observe existing laws and regulations relating its use and follow the directions on the manufacturer's labels.

also states a need for bindweed control.

With recent rains, vigorous bindweed growth has occurred. With runners six to eight inches in length, bindweed can be treated with one half to one pound per acre of 2,4-D. This application will reduce tillage operations until the weeds emerge again.

PRESTON SMITH for GOVERNOR

VOTE SATURDAY JUNE 1

TO: The Citizens and Voters of Texas FROM: Preston Smith, Candidate for Governor

I am proud to have been a part of Texas government for 18 years. Opponents may harp about what is wrong in Texas; I happen to think there are a lot of things RIGHT in Texas. I am proud of my state and its people.

Things can be even better, and I want to work with you in that direction. It's more or less in the political tradition to lambast your opponent and say a lot of ugly and cutting things about him. I don't want to engage in personalities; my opponent has no public record to criticize. Therefore I am running for Governor on my own merits.

It may be pretty ambitious for a farm-born, farm-raised Texas boy, who worked his way through Texas Tech and spent his adult years in business activities in Lubbock, to aspire to be Governor. You will be the judges as to whether my experience and proven qualifications entitle me to be elected. I will accept your judgment with real gratitude for your past support and friendship.

Please remember that if I am elected, my door will always be open to any Texan who has any problem whatever that the Governor can help with. I will always be interested in good government. I will always be interested in you.

Preston Smith

Hello, my name is Tuiti-fruiti. I am a bicycle, you really should be careful with me because you can replace me but you can't replace an arm or a leg. So be careful when you ride me or something bad might happen to you.

Bicycle Safety

BY SHERRY EVANS
Fifth Grade
Stay Alive

A person riding a bike should know all of the safety rules and regulations. Why? Because if he does not he could be hurt. For example, if he were riding on the sidewalk and he wasn't

looking where he was going a car could pull out and he could be hurt very bad. That's why he should have watched where he was going and not ride on sidewalks.

A person should also have his bike in perfect condition. First of all he should have his brakes checked. He should also have a light, basket, and horn. He should make sure his tires have enough air. This is for safety.

(The essay is accompanied with a page of street signs diagrammed and colored. Signs included are Stop, Railroad Crossing, Keep Right, Yield, Curved Road, and Caution. Concluding page of the entry shows diagrammed arm signals used by the bicycle rider to illustrate the right turn, left turn, and stop or slow which are all made with the left hand of the bike rider.)

BICYCLE SAFETY ESSAY winners, from left, front, Laura Laycock, Sherry Evans, Janice Williams, Marty Widick and Tom Dawdy were presented with plaques last week. Also shown are Herman Alexander, back left, president of the Rex Reeves Parent-Teachers Association and Burwell Southern, left, president of the Canyon Kiwanis Club.

Bicycle Safety

Bicycles present hazards to motorists. Children riding bicycles, tricycles, roller skates, wagons, scooters or other wheel toys should stay on sidewalks, or in yards or playgrounds. Any cyclist not old enough to know, understand, or accept traffic regulations must not ride a bicycle in the street.

Bicycle Rules
Here are some safety rules to follow:
Learn and follow the same traffic rules that automobile drivers follow.
Ride in the same direction as automobile traffic.
Stay close to the right edge of the road so cars can pass easily.

horn or bell, and brakes are in good working order.

Always signal when turning a corner or stopping.
Slow up at intersections. Walk your bicycle across busy intersections.

Make no sudden stops or motions that might confuse a driver.

Always ride in single file when riding with a group of cyclists.

Never try stunts or ride more than one person on a bicycle.
Avoid heavy traffic. Use bicycle paths when they are available.

Children should never take wheel toys in the street. They should learn to watch for cars backing out of driveways. They should be courteous to persons using the sidewalks.

Bicycle Safety Rules

Before you start on long or short trips you should check your brakes, handlebars, seat and bolts. If you have foot brakes you should pump them a few times to make sure they work. If you have hand brakes tighten the wires leading to the

"stoppers." If they are hard you should get new ones or put brake fluid on them. If you have loose handlebars you should tighten them up and move them to a comfortable position. If your seat is loose you should tighten it up and move it to a comfortable position also.
When you do start on your trip keep your mind on riding

your bike not on the big football game or playing dolls at your best friend's house. If you don't it may cause you and others serious trouble.

You also should stay off of sidewalks. But if you have to get on the sidewalks watch out for pedestrians. If you do happen to meet a pedestrian give them the right of way.

cause you to have a wreck.

All of the things I have just told you and many more are things you should do before and while riding a bicycle. If you follow all these rules you will be following good bicycle safety.
